PROFESSIONAL SUMMARY

Laravel Developer with 2.5+ years of experience in building scalable backend systems including HRMS, attendance management, company hierarchy, and asset management. Strong expertise in Laravel MVC, Eloquent ORM, REST APIs, authentication, and role-based access control (Spatie). Experienced with PostgreSQL and MySQL, query optimization, and frontend integration using AJAX, jQuery, and Bootstrap.

WORK EXPERIENCE

- **Laravel Developer** — **Aug 2024 - Present**
  Exiliensoft - Noida
  - Developed and maintained HRMS modules including Employee Management, Attendance, Leave, Company Hierarchy, and Asset Management.
  - Designed company hierarchy structure using parent-child relationships and permission-based access control.
  - Optimized database performance using Eloquent eager loading and query refactoring.
  - Implemented role-based access control using Spatie Laravel Permission.
  - Worked with PostgreSQL for reporting and complex data queries.

- **PHP Developer** — **Jan 2024 - Jul 2024**
  WTF Digital - Noida
  - Developed CRUD-based backend modules following MVC architecture.
  - Integrated frontend components using Bootstrap, jQuery, and AJAX.
  - Implemented backend validations and reusable code structures.
  - Collaborated with the team using Git for version control.

- **Web Developer Intern** — Jul 2023 -Dec 2023
  Recall Infotech - Agra
  - Assisted in developing and maintaining PHP-based web applications.
  - Worked on frontend UI improvements using HTML, CSS, and JavaScript.
  - Performed basic MySQL database operations and form validations.
  - Gained hands-on experience with Git and local development environments.
